Research and Training Projects

Outstanding Research and Training Projects: The 5Ps of SDG

People

- Street Vendors' Health and Job Security
- Quality of Life Improvement for People with Disabilities
- The Development Leaders Project According to the Royal Initiatives Training Course Project (DLR), Class 11

4,500 street vendors improved their job security.

Policy recommendations for improving the lives of people with disabilities, covering 3 plans: personnel development, digital, and 1 annual action plan.

50 participants from 11 organizations (public and private sectors) completed the DLR program.

Planet

- Vetiver Grass for Erosion Riverbank Protection
- Vetiver Grass Master Plan Initiative
- Climate Change Literacy for Indigenous Communities

2,000 km² of riverbank areas are protected in Prachinburi Province.

34 agencies have adopted the Vetiver grass master plan under the Royal Initiative.

Trained 36 participants from 5 countries on climate change literacy.

Peace

- Rotary Peace Training

70 peacebuilders from 25 countries completed training in conflict resolution and peacebuilding.

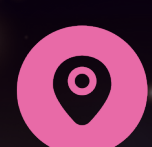

Partnership

- Social Science Research Support Pilot System

A pilot project initiated with the collaboration of 5 universities and 100 researchers to support social science research in Thailand.

Join us at CUSRI to drive meaningful impact and shape a better society together.
