**And**

**MULTIDISCIPLINARY RESEARCH INSTITUTE  
CHIANG MAI UNIVERSITY, THAILAND**

The three parties agree to undertake scientific cooperation in the field of food science, under the following terms:

**Article 1**

The parties agree to carry joint research. This can be done through partnerships within research projects or through the matching of the national ongoing or future national projects. Other forms of scientific cooperation may include:

- a. Exchange of academic staff on short visits for consultations;
- b. Joint work on scientific papers;
- c. Reciprocal submission of papers in periodicals issued by the all parties;
- d. Exchange of scientific publications;
- e. Reciprocal invitations to international conferences, symposia, workshops, seminars;
- f. Work on joint international project proposals, e.g. Horizon Europe, (SEE) ERA.NET (+), COST, regional.

**Article 2**

The scientific fields for cooperation are:

- a. Cereal technology
- b. Development of bakery products
- c. The convergence between food technology and health
- d. Increase of the quality and safety of food and food products
- e. Analysis of bioactive compounds and their application in functional foods
- f. Development of new methods in analysis of bioactive compounds
- g. Other fields relevant to the activity of the three institutes

**Article 3**

The parties will seek financial support for above mentioned activities (own funds or research projects).

#### Article 4

This is a long-term agreement effective as of ..... (herein after effective date) and will cease upon written notification from one of the partners (see Art. 6).

#### Article 5

Any amendments to the present Agreement must be done in writing, with the signatures of all parties.

#### Article 6

Either party may cease this Agreement, by providing the other with written notice of its intent at least 3 months prior to effective date of termination.

#### Article 7

The Agreement has been prepared in six original copies in English, two copies for each party.
